What's in the Box

Camera

Power Adapter

Quick Start Guide

NOTE: The number of accessories varies with the camera model you purchased.

Camera Structure Diagram

Features

Human Tracking

Automatically follows person by adjusting its angle upon detecting human-figures.

Offers all-around, multi-angle surveillance.

Ideal for keeping an eye on active little babies.

Smart Temperature and Humidity Monitoring

Real-time environmental monitoring for temperature and humidity, keeping you informed about your baby's surroundings at all times.

HD Night Vision

Experience 910nm clear infrared night vision without visible red light, ensuring it won't disturb your baby's sleep or eyesight.

Immediate Alerts for Baby's Crying

Detects your baby's cries and sends instant notifications.

Offers intelligent soothing with soothing music playback.

AI Virtual Perimeter

Effortlessly designate your baby's activity area through the App, and receive instant notifications if they venture beyond the designated boundaries.

AI Covered Face Detection

Intelligently recognizes unsafe sleep habits such as head covering or sleeping face down, promptly sending alerts to parents.

Installing a Micro SD Card

Make sure the camera is powered off. Lift the camera head upward to access the SD card slot. Insert the Micro SD card with the contact side facing downward.

NOTE: Always disconnect the camera's power when inserting or removing the card to prevent any damage. Use Micro SD cards from regular manufacturers and ensure they are formatted in Fat32 before installation. It's recommended to use a Micro SD card with a minimum speed rating of U1/Class10.

Device Startup

Connect the power cord to the Type-C charging port on the back of the camera, and the camera will automatically turn on.

NOTE: The camera will rotate automatically during the boot process. Do not manually adjust the camera forcefully. Self-checking will take approximately half a minute.

App Installation

Scan the QR code below to download the free Zosi Smart App on your smartphone. (You can scan to download for both Android and iOS systems, or you can search for and download the App from App Store or the Google Play Store.)

Zosi Smart

Android/iOS

App Operation Video

Add Device

1. Open Zosi Smart App and follow the prompts to register and log in.
2. Tap "+" to add a device. Follow the in-app instructions to complete the network settings and addition of the device.

AVSS

Download and install the Zosi AVSS client from the official website at <https://www.zositech.com/app/>. Sign in with your Zosi Smart App account to prevent the need for multiple accounts. If there is no account or password prompt for local login, please scan the QR code below to watch the AVSS operation video.

Installation Notes

1. Ensure that the device has been added to the App before installation.
2. The camera can be installed on flat surface or using a bracket. It is recommended to place it in a location with a wide field of view.

Install the Bracket:

1. According to Figure 1, loosen the bracket knob counterclockwise.
2. Install the bracket at the end of the crib, and then tighten the bracket clockwise to secure it.
3. Align the screw hole on the bottom of the camera with the screw on the bracket, and rotate it clockwise to secure the camera.

NOTE: The bracket need to be purchased separately.

Installation and Usage Precautions

1. Please use the provided power adapter to supply power to the device. Using a different power adapter or not following the provided instructions may cause damage to the device.
2. This product is intended for indoor use only and should not be placed outdoors, including areas like hallways, under eaves, or within covered courtyards.
3. For indoor installation, keep the device away from humid or high-temperature environments.
4. Avoid prolonged exposure to direct sunlight when using this product to maintain its performance.
5. Installation and operation of this product should comply with national and regional electrical safety regulations.
6. To enhance user experience, the App will be updated and upgraded periodically, and specific operations may vary. Please follow the guidelines provided by the App.

FAQ

Q: Why is the device offline?

A: Please check whether the device is connected to the network and whether the router is functioning properly for internet access. Also, ensure that the router is enabled to automatically obtain an IP address.

Q: Why can't I find video recording files?

A: Please check if the Micro SD card is damaged and if the date you are searching for has valid recorded files. Additionally, verify that the system time settings on the device are correct.

Q: Why is the two-way audio function not working?

A: Please check whether the App on your phone has been granted all the necessary permissions during installation.

Q: Why is the mobile app not receiving push notifications?

A: Please check whether the App's push notification settings are enabled and whether your phone allows notifications from this App.

Q: Does the camera support motion detection and image capture?

A: It captures images automatically when people, cars, are detected or when there is a change in detected images. Users can also manually capture images using our ZOSI Smart APP.

Notification of Compliance

1. FCC Compliance Statement

This device complies with Part 15 of FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Simplified EU Declaration of Conformity

ZOSI declares that the device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.

Correct Disposal of this Product

This marking indicates that this product cannot be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal and promote the sustainable reuse of material resources, please recycle it responsibly. To return your used device, please visit the Return and Collection System or contact the retailer from whom the product was purchased. They can take this product away for environmentally safe recycling.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Warning Statements:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) L' appareil ne doit pas produire de brouillage;

(2) L' appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d' en compromettre le fonctionnement.

Radio Frequency Exposure Statement for IC

This equipment complies with IC exposure limits set forth for an uncontrolled environment. The device can be used in portable exposure conditions. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.

Cet équipement est conforme aux limites d'exposition IC établies pour un environnement non contrôlé. L'appareil peut être utilisé dans des conditions d'exposition portables. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et le corps.
